

ATA CARNET - SECURITY RATE CHART (INCLUDES 10% PENALTY)

ATA Carnet provides a guarantee to the Customs of a foreign country into which the goods are temporarily imported that all duties, taxes etc. will be paid to them if the conditions under which they allow these into the country are breached. The Issuing Chamber must receive security from the Carnet user equal to the highest rate of duty and taxes applicable to the goods in any country of destination, and transit if applicable (inclusive of a possible 10% penalty, as laid down by the International ATA Convention). It will disregard any preferential tariffs that may be in force at the time because Customs authorities may themselves ignore such preferential rates. **Note that these rates only provide an estimate of what the duty may be - actual charges may be higher or lower depending on circumstances at the time of the goods being imported**
